Kihei, HI 96753

Dear Brandon:

I wanted to take this opportunity to thank you and express our appreciation for you and your staffs' stellar participation in our recent restoration project. Over two years ago, when we contacted your firm about our project, you shared your expertise and educated opinions, which in turn, gave us the criteria to approach our Association with a plan of action. Always the voice of reason, you guided our board of directors to make the critical decisions regarding the structural issues we faced. This was particularly true when it came to our buildings' columns. A true challenge for you and your staff.

Through the many stages of this project, you and your firm were there every step along the way. From meetings with our board of directors, architect and construction coordinator, to the design of the structural solutions our building required, you took the time to explain and oversee the work, first hand. This personal attention to the project made a significant difference to the outcome we enjoy today.

We now have a building that, not only looks great but is structurally sound for the future. Without your participation, we could not have achieved what we were able to do, in the time we were given to do it. You and your talented staff really made a difference here at the Kihei Surfside Resort.

As they say here in the islands, Mahalo Nui Oi, or thank you very much Brandon.

Sincerely yours,

Kenneth Petersen  
President  
Board of Directors  
Kihei Surfside AOAO
